

Welcome to the SMC Entry Types Reference Guide

This PDF is designed to give you a **quick visual overview** of the different **entry types** we'll be using and learning throughout this course.

Inside, you'll find only **pictures** — clear snapshots of each **entry type** — showing how they look on the chart. This guide is for **reference only**.

Please note:

This PDF does **not contain explanations**, strategies, or rules like:

- How to enter
- Where to place SL or TP
- When to use or avoid each entry
- How to refine or confirm your entries

All of that will be **taught step-by-step in the live lessons** with real-time chart examples and explanations.

How to Use This PDF:

-  Use it to **familiarize yourself** with the entry patterns we'll study
-  Keep it open during live sessions for **quick comparison**
-  Revisit it anytime you need a **visual memory refresh**
-  Don't try to trade just based on this — wait for the **full understanding in class**

This is just the **starting point** of your journey into Smart Money entries.

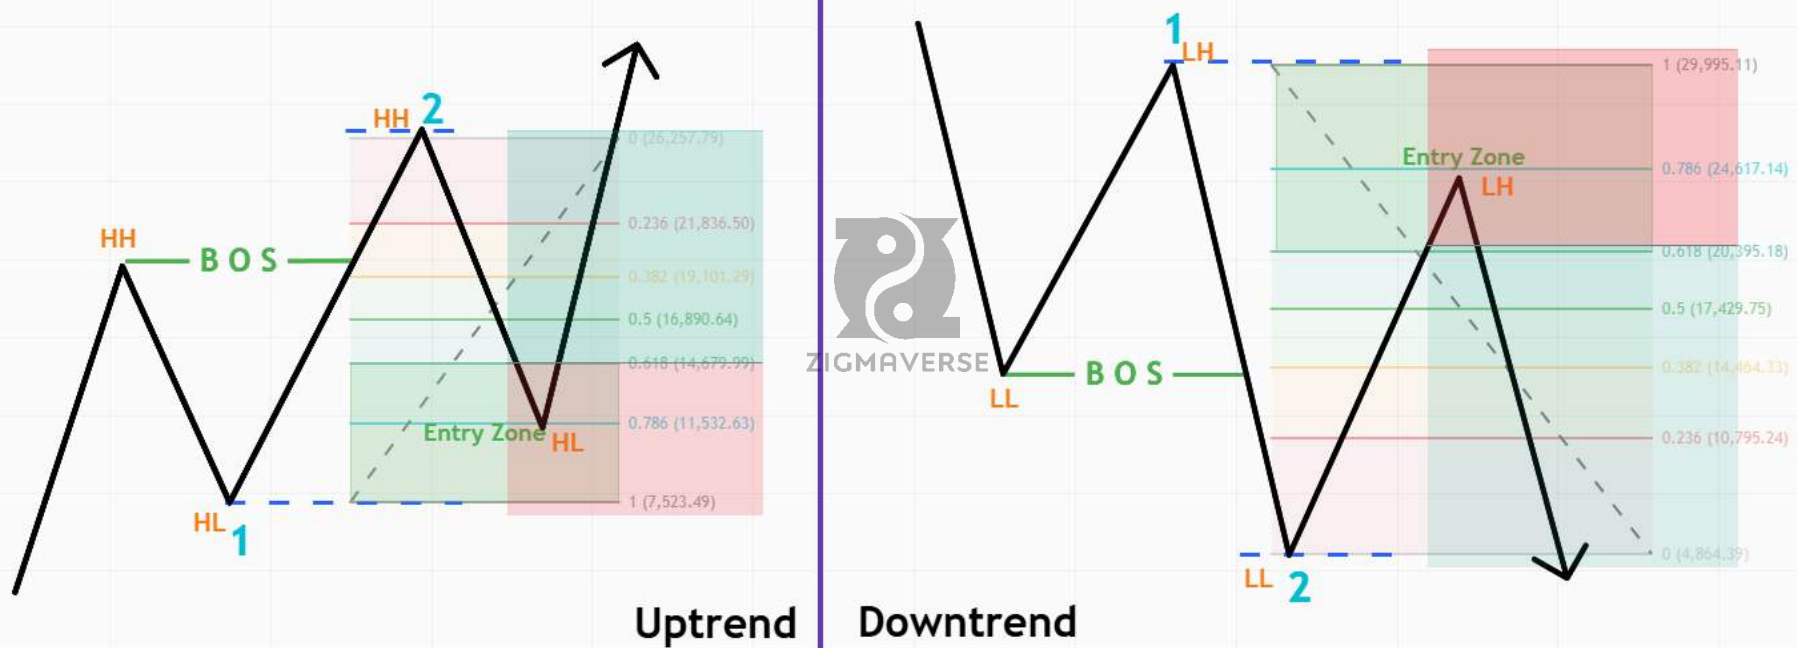

The real learning happens when we go deep — together — in the live market.

Keep this PDF by your side as your **quick-access map**, and get ready to master each entry style with **clarity and confidence** in class.

— With respect,

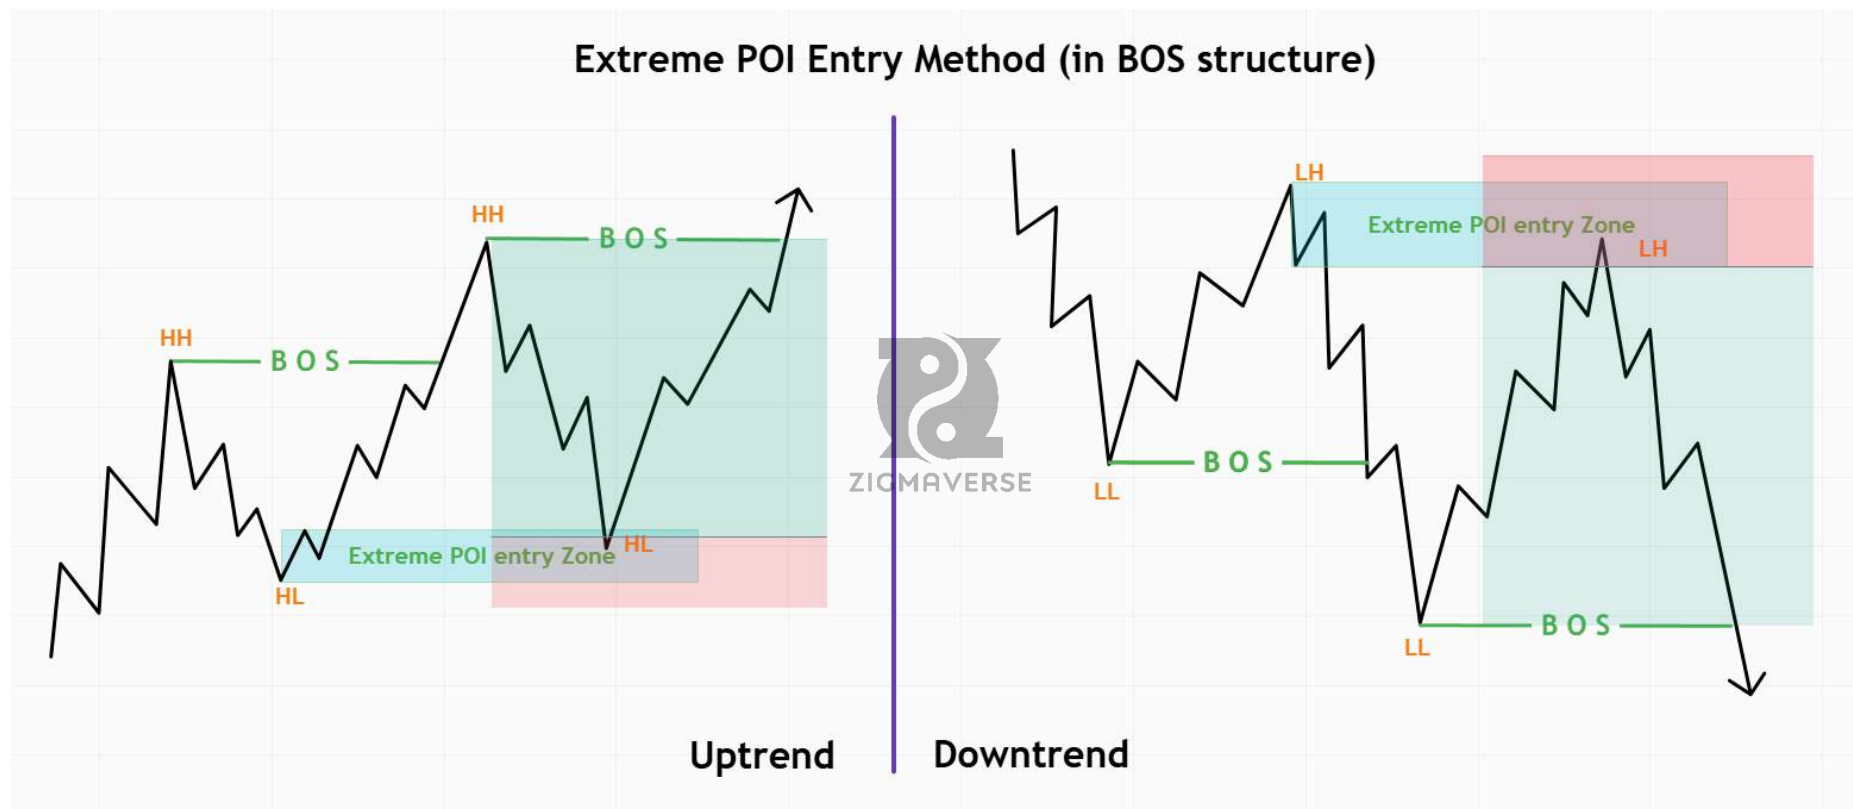

Charuka Weerakkody
